

¡Inténtalo! – Two Actions Spinner Game

Make the spinner using any of these methods.

1. The easiest way to make a spinner:

- Print the spinner on card stock and cut it out.
- Place a paper clip in the center of the spinner.
- Place a pencil point inside the paper clip at the center of the spinner. Push the end of the paper clip so it rests behind the pencil point and spin. The paper clip spins around the pencil tip.

2.

- Print the spinner on card stock and cut it out.
- Open a paper clip so that it is an "L" shape.
- Pierce the center of the spinner.
- Insert half of the clip under the spinner and the other half above.
- Keep the "L" shape so that part of the paper clip is sticking straight up from the spinner.
- Secure the other part of the paper clip to the back of the spinner with tape.
- Place another paper clip over the part sticking up. Spin!

3.

- Print the spinner on card stock and cut it out.
- Cut out an arrow from a plastic lid or card stock.
- Put a hole in the center of the spinner. Put a hole in the arrow and attach the arrow to the spinner with a metal brad.
- Bend the arrow up just slightly so that it spins freely.
